DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Scott Anderson on 4/8/2010 and 4/9/2010.

Applicant's representative, Scott Anderson, gave examiner authorization on 4/8/2010 to move the limitations of claims 38 and 39 into claim 1. Claims 38 and 39 are cancelled. Claim 1 as amended now recites:

A package for preparing a refreshment, the package including a package space containing a gas and an at least a partly foamable liquid wherein the package is provided with at least one manually operable element with which a displacement of the gas and the liquid in the package can be effected such that foam formation occurs in the package space wherein the package space comprises at least two chambers mutually connected by a channel located there between, the liquid and the gas being displaceable between the at least two chambers via the channel, wherein the channel is associated with a fluid flow disturber for causing turbulence in fluid flowing between the at least two chambers, wherein each of the at least two chambers is configured for

being varied by the at least one manually operable element at least as to shape, wherein the at least two chambers are each defined by a flexible wall, wherein alternating distortion of the flexible wall at least partially defining each of the at least two chambers, is configured to cause the liquid and gas to flow through the flow disturber to effect foam formation.

Applicant's representative, Scott Anderson, gave examiner authorization on 4/8/2010 to change package to apparatus in claim 43. Claim 43 as amended now recites:

The apparatus according to claim 42, wherein squeezing of the first chamber changes the volume and space of the first chamber, and squeezing of the second chamber changes the volume and shape of the second chamber.

Applicant's representative, Scott Anderson, gave examiner authorization on 4/9/2010 to change the dependencies of claims 10, 12, 23, 27.

Claim 10 as amended now recites:

The package according to Claim 1, wherein the fluid flow disturber comprises at least one of a constriction, a gauze, or grid.

Claim 12 as amended now recites:

The package according to Claim 1, wherein at least one of the at least two chambers is at least partly filled with the gas.

Claim 23 as amended now recites:

The package according to Claim 1, wherein at least a part of the package is made from a flexible material.

Claim 27 as amended now recites:

The package according to Claim 1, wherein the at least one manually operable element comprises a piston within the package space and which can be operated from outside the package.

Allowable Subject Matter

Claims 1,3-6,8,10,12-20,23,25-29,31-34,37-43 allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art of record, Frank Brady, US-Patent 5,939,122 and Jurgen Zimmermann, US-Patent 4,306,492 fail to teach or render obvious a flexible package having at least two

chambers wherein the flexible package is distorted to force fluid flow between a channel or "fluid flow disturber" located between the chambers in order to create foam.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to PRESTON SMITH whose telephone number is (571)270-7084. The examiner can normally be reached on Mon-Th 6:00-4:30.
